Programmer
Software Developer

After my career as a public accountant, I discovered that my true passion lies in technology and programming. Therefore, I decided to switch professions to pursue what genuinely attracts me.

Experience

- **Position**: Software Developer
  Company: Cressio
  Period: 01/08/2024 - Present
  Working as a freelancer, I take on tasks when I have time or when someone assigns me one. I develop pages using WordPress/Elementor, create plugins in PHP, and automate processes with Python.

- **Position**: Developer/Team Leader. (Full time)
  Company: Accesit Consulting
  Period: 01/02/2023 - Present
  Responsible for development, task assignment for a **CRM/ERP**, release preparation, deployment on **AWS** both EC2 (**Linux** - **Ubuntu Server**) instance and RDS. Database architecture (**MySQL**). Working with **PHP** - **Laravel** and **Javascript**. As a team leader, I implemented **Gitflow** as a branching workflow methodology and was responsible for maintaining order to ensure smooth development.

- **Position**: IT/Accounting Assistant (Part-time)
  Company: Ing. Zhender S.R.L.
  Period: 01/01/2023 - Present
  Responsible for server and network maintenance, accounting process automation with **python**, calculation of withholdings, and sending documentation to the accounting department. Migrating a system based on cobol to **Java**, with **Spring boot** and **Angular** on the front.

- **Position**: Wordpress/PHP – Laravel Developer.
  Company: Oberstaff
  Period: 01/10/2022 – 31/01/2023
  Responsible for developing pages in Wordpress and WooCommerce, and a CRM in Laravel.

- **Position**: Accounting Administrator
  Company: S.A. de Obras y Emprendimientos Ambientales Venturino
  Period: 05/01/2020 - 31/12/2022
  Responsible for suppliers, invoice loading, withholding calculations, check and note preparation, check deposits, client collections, etc..

- **Position**: Teacher
  Company: Academia Daniels
  Period: 05/2016 – 06/2018
  Teacher at a private academy for: Economics, Mathematics, Accounting, Statistics

- **Position**: Manager
  Company: Autoservicio Ariel
  Period: 01/12/2008 – 31/10/2019

Responsible for paying suppliers and staff, collecting from clients, cash control, merchandise restocking, and price control. Staff supervision..

- **Position**: Stock Manager
  Company: Generación Jeans
  Period: 02/01/2018 – 15/02/2019
  Responsible for loading clothing into the stock system, training staff, and price control.
- **Freelance**: PC Repair and Network Administrator.

Academic Background

- **Degree**: Computer Science
  University: Teclab / Siglo 21
  Period: 01/01/2023 – Present
  Currently studying, with a link to the degree in Programming Engineering once completed.
- **Degree**: Accounting
  University: UNNE
  Period: 01/02/2009
  Attending Degree I started after finishing high school at one of the most prestigious universities in the country, mainly because I was always good at math and accounting. But before finishing, I discovered that my true vocation is programming, so I did not finish the degree, but I take with me everything I learned up to the 4th year (of 5 years).
